MEMORANDUM FOR THE RECORD

SUBJECT: HSC Country Briefings

25X1 Boos, [] and I discussed some problems that we might face in providing briefings on two countries which Boos had named. Boos suggested as an alternative that we might provide a half dozen other countries which would have sufficient CIA action in them and be of sufficient current nature so that Committee members would not require in depth briefings as a prerequisite to their full understanding of the intelligence activity going on there. Boos did not want [] the list. We agreed to provide a list for his consideration. Boos made it clear that this did not foreclose the possibility that the Committee might require briefings on the two countries originally on the list.
